Information Changelog Stats

Flight control system library, designed for atmospheric planes. Features complex fly-by-wire, camera-directed autopilot, cruise flight control.

FAR-compatible.

Example videos: fly-by-wire (https://youtu.be/MDChYmfR6XA), mouse director (https://youtu.be/9KyOvL3oB-E).

Hotkeys:

1. "P" - "Master switch" you can use to toggle AA.
2. "Shift"+"P" - toggle Autopilot Module manager GUI.
3. "O" - default hotkey for moderation switch, when Fly-By-Wire is active.
